Analysing information and writing the script:

Group „Witan“

Scene 8: Harold and Aldytha

Learning by doing

- In the afternoon -

Work was really fun!

-Making suits of armour for the Saxon and Norman knights

... needed much patience.

Children and sisters had their part in it.

Dance

A choreography by the students of the class produced by Sandra Blum and Andrea Stolz

From classic Medieval to Rap, all was possible –
we made our ideas come true ...

Finally the filming could start: Tuesday, 14th of October 2003 in the „Kiefernhof“

Scene II The Witan

Harold's wife Aldytha and his mistress Edyth Swanhaels

At Harold's Coronation

Westminster Abbey in Eckfeld

The battle begins ...

Wednesday afternoon

- But before we could start fighting the Normans, we had to build the Saxon camp on the high ridge of a hill in „Daun Pützborn“. To get into the feeling, some of the boys stayed overnight ...
- It was *really* cold!

Now we're getting serious

Thursday, the 16th of October

The battle can begin. The French
are coming!

Ready for the fight

Even though the fyrd and the housecarls were tired from two days of intensive filming, they gave their best on that cold and windy October day, just like the Normans and the camera-women and all the other helpers.
